

Shadow & Spirits:

A Restaurant Reservation System

A MERN application of a restaurant website that can Create, Retrieve, Update and Delete Data from the database.

The application features a mobile-responsive design, intuitive user flow, and error handling to ensure a seamless experience across devices. This project demonstrates my proficiency in full-stack JavaScript development, database design, and modern UI implementation.

Functions:

- Create a reservation
- Retrieve reservation details using the unique reservation number generated
- Update reservation details
- Delete reservation made

Frontend: React and Tailwind
Backend: Node.js and Express
Database: MongoDB
